

Section 140 Assessments

If you have a Statement of Special Educational Needs or need extra help at school your Personal Adviser will complete a Section 140 Assessment.

- » It will be completed in your last year at school
- » Your Personal Adviser will complete a Section 140 Assessment for you if you are leaving school to go on to work-based learning or further education
- » It will have details of the type of support you will need to be successful in the future

If we have your permission, this information will be shared with the college or work-based learning provider that you are going to.

This will help to make sure that you get the help you need to manage your course or training.

Your Personal Adviser will tell you what they are going to write on your form and ask you to sign it.
