

Work Experience

While you are still at school you might get the chance to go on work experience.

Work experience can help you:

- » Learn new things
- » Find out more about a workplace
- » Meet new friends
- » Get a certificate
- » Help you decide what you might like to do in the future

These people can help you plan your work experience:

- » Class teacher
- » Personal Adviser
- » Parents
- » Friends
- » Other school staff, such as a classroom assistant

Your Personal Adviser can talk to you about the different places you might like to go for your work experience.

People will help and support you while you are on work experience.
